

PMAANZ Organisation Privacy Policy

Introduction

At Practice Managers & Administrators Association of NZ (PMAANZ), we respect your privacy and are committed to protecting the personal information you share with us. This privacy statement explains how we handle the data you provide while using Microsoft Teams or any other provider hosted on Microsoft Azure.

Data Ownership and Control

You retain full ownership of the data you store within [Your Service Name]. We do not share your data with third-party advertisers, nor do we mine it for marketing purposes. We process your data solely based on your consent and only for the purpose of providing the services you have requested.

Data Location

You have the option to choose the geographical location where your data is stored within Microsoft Azure's global network of data centres. We do not restrict the locations from which you or your end-users may access or manage your data.

Data Security

We implement state-of-the-art security measures to protect your data both at rest and in transit. This includes 256-bit AES encryption for data at rest and robust protocols for data in transit. We also offer tools like Azure Policy and Azure Blueprint to help you manage and control the location of your data.

Data Retention and Deletion

If you decide to stop using Microsoft Teams, or if your subscription expires, we follow strict procedures to remove your data from our systems, in line with Microsoft's data protection standards.

Changes to This Privacy Statement

We may update this privacy statement from time to time. We will notify you of any changes by posting the new privacy statement on this page and updating the "Last Updated" date at the top.

Contact Us

If you have any questions about this privacy statement or our handling of your data, please contact us at admin@pmaanz.org.nz.
